## **Project Update - City of Durant Wastewater Treatment Plant**

DURANT, Oklahoma - Big progress is already being made on the Belt Filter Press project at the City of Durant's Wastewater Treatment Plant.

In January, construction began on the \$2.2 million project to enhance wastewater infrastructure needed to support business expansions, attract private investment and create jobs in Durant.

The project is a joint effort with Choctaw Nation and is funded in part through a \$1.5 million grant from the [US Economic Development Administration](#). The project is on track to wrap up sometime this Fall.
