City of Durant Utility Billing News

1--Smart Meters Now Installed at 80% of Durant Homes

DURANT, Oklahoma - The installation of Smart Meters in Durant is nearly complete! Roughly eighty percent of homes across the City now have the new Smart Meters installed.

The meters work by electronically measuring a household's water consumption and then sending the information to the City's Utility Billing Department.

From there the water portion of the resident's City utility bill can be efficiently calculated every month.

The project is expected to wrap up mid-Summer or early Fall.

2--The City of Durant's Residential Water and Wastewater Disposal Rates Drop

If you live inside Durant city limits, the new reduced rates for residential water and wastewater disposal are now in effect!

The new residential water rate was \$12.45 and is now \$12.00. The wastewater disposal rate dropped by 28%. It went from \$12.45 to \$9.00 for the first 2,000 gallons.

The new rates were reflected on last month's City utility bill.

In addition to being able to pay residential utility bills by mail and at Utility Billing (4th street side of City Hall), customers have the option to pay online at www.durant.org/613/online-payments or at any of the Utility Bill Pay Kiosk locations below.

- The Main Lobby at City Hall
- Choctaw Travel Plaza, 4015 Choctaw Rd

- Pruetts Food, 1231 N. Washington
- Southeastern Electric, 1514 E HWY 70
